

WORKING IN PARTNERSHIP WITH YOU TO ACHIEVE OUTCOMES FOR YOUNG PEOPLE

EMPLOYABILITY SKILLS TRAINING WITH BRIDGING THE GAP

Bridging the Gap has been delivering training and placing young people into employment in WA for over 30 years. During this time, we have successfully helped young people find employment with our extensive network of employers throughout the region. Our long standing relationship with employers throughout the Perth-South Employment Region gives us a competitive advantage when working with you to help secure internships or employment placements for young people.

BRIDGING THE GAP EMPLOYABILITY SKILLS TRAINING

The aim of our training is to build the skills, capabilities and work experiences that young people need to succeed in the workforce. We will work in partnership with you to secure internships or employment placements for the young people who complete our Block 1 and Block 2 courses. Our training in both soft and hard skills will include extensive off-site and on the job learning. Our training incorporates workplace visits, work experience and/or assistance with internship opportunities as well as assistance with sourcing prospective job placements.

Our training courses include two nationally recognised modules - Communicate in the Workplace and Contribute to the Health and Safety of Self and Others.

We intend to make our training real, exciting and relevant to the workplace through industry visits and project based work.

We will engage and retain participants through our interactive, hands-on learning environment.

OUR COMMITMENT TO YOU

Accessible locations that meet demand

Our sites are strategically placed to meet referral demand. We can deliver at your jobactive site if that is more convenient for your job seekers.

We have flexibility

We can arrange additional courses in high demand areas as the need arises.

Ensuring a smooth referral process

We are committed to building relationships through excellent communication and collaborative partnerships with your jobactive team.

Compliance

We understand the importance of keeping our training course information up to date via the Department's IT system.

Feedback

We will actively encourage feedback from jobactive providers and job seekers to ensure we are continuously improving on all aspects of our program service delivery.

Achieving outcomes

Bridging the Gap has many years' experience in placing people into work. We work with our employers to ensure our job matching techniques meet employer needs.

Working together to achieve the best outcomes for job seekers

Bridging the Gap will work in partnership with you to relay information regarding career pathways for each job seeker and to support employment and internship opportunities for young people.

Bridging the Gap is delivering the Employability Skills Training component of the Australian Government's Youth Jobs PaTH initiative. Employability Skills Training providers are proudly supported by the Australian Government.
