Kambarang season – warming and finishing

Longer dry periods and fewer cold fronts cross the coast. The height of the wildflower season.

Noongar moved towards the coast where frogs, tortoises and freshwater crayfish were caught.

The Noongar seasonal calendar has six different seasons in an annual cycle. Each metropolitan Jobs and Skills Centre is represented by one of the six Noongar seasons, paying respect to the land on which the centre stands and serving as an invitation and a welcome to all members of the community.
